LAKE MENDOTA AT WISCONSIN AVENUE

June 14, 1977

Dear Harold,

Our letters crossed in the mail. Thanks for the info on the Hall hearing. I didn't know that Art Kevin was still around and active.

I don't remember anything else on Alvarez which would shed light on the ERDA mention. I was ##### shocked by it just as you were and just didn't have time to pursue it. It pissedme off that more tax money had been spent to mail critics of the WR. When I asked Paul about it he didn't have any answers save for his question as to whether they had actually sponsored the research. Even for them that would be blatant support of propaganda, and I would assume that the US government would prefer that coverup activities not be so directly and politically linked to US funds.

I hope that your trip south was useful and enjoyable.

Best wishes.

Gary
